Please see the link to the additional tables here:

You need to look at the tab ADD19 and line 67 for Whitlingham growth investment for increasing DWF capacity, and the increased population this would serve.

Best wishes

At our meeting last week we were discussing the evidence requested of applicants in respect of foul water flows to Whitlingham which currently has negative available headroom under the Q80 measure to accommodate growth. You attached a link to the meeting chat that outlined PR24 business proposals iro Whitlingham. [Redacted]

Could you please resend the link?

Many thanks
