Thanks for raising this. I'm pretty sure that I mentioned that we had already provided all the WRC catchment GIS data to the Norfolk LPAs for nutrient neutrality work and [Redacted] was going to ask [Redacted] for this information. [Redacted]

Just wanted to drop you a quick line re the Actions Log. It is recorded as an Action for me to provide a map of the Whitlingham Catchment. I recall some discussion around this at the last meeting and it was maybe interpreted for us to provide, but we have since discussed internally, and consider it would be best placed for AWS to provide the most up to date map/shapefile of the W catchment, as it is your asset and you will be able to confirm any potential changes etc.
